

Deep Foundation Solutions

Kent Companies provides deep foundation engineering support and services to structural engineers, design firms and contractors across the country.

We meet your geotechnical challenges with structural engineering credentials, a fast-track distribution system and an installation team with over 25 years of deep foundation experience. Work with one partner who can add value to your project by offering an engineered opinion, stamped plans, and installation expertise.

Services

Engineering Services

Our engineering team specializes in geotechnical applications. We provide deep foundation design alternatives formulated for specific projects and challenging soil conditions.

Product Distribution

Kent Companies is the premier supplier of helical piles in the United States. We maintain relationships with multiple manufacturers and hold a comprehensive inventory of helical piles in all sizes at multiple locations.

Installation Services

Kent Companies is a foundation contractor with experience in all commercial applications including new construction, repair, renovation, retaining wall tiebacks, temporary shoring tiebacks, boardwalks and walkways, and shoring and underpinning.

About the Firm

Kent Companies provides deep foundation services from locations in Grand Rapids and Detroit, Michigan and Strasburg, Ohio. These operation centers offer strategic access to projects located throughout Michigan, Ohio, Pennsylvania, Indiana, Illinois and Kentucky.

A third-generation family-owned business, Kent Companies has expertise in commercial and industrial construction, mixed-use construction, multi-family housing, tilt-up concrete, post-tensioned cast in place structures and a full range of concrete-related specialties. Kent Companies employs over 800 construction professionals across the nation and is consistently ranked among the top 20 largest concrete contractors in the country by ENR Magazine.
